

# Piano lessons

The focus of this class is to learn how to play the piano but most importantly how to make music. Music is a language that expresses our feelings & ideas and connects us with other people but also with ourselves.

Together we can work on the basic principles and tools to play the piano, setting a healthy technique but also cultivate your personal sense of music. Further on, we can explore new repertoire and unknown composers, refine your playing and learn how to deal with difficulties, discuss interpretation issues and even work on your performance on stage.

With music theory, we can dive into the alphabet and syntactics of music: the world of harmony, rhythm, solfege and analysis.

## How long is a lesson?

You can choose between 60, 45 and 30 minutes.

## Where will the lessons take place?

At my studio in Rotterdam. It is equipped with a grand piano (Bechstein) and an upright piano.

Address: Soundport, Keilestraat 3, 3029 BP Rotterdam

## Can I have online lessons?

Sure! The setting of my online lessons includes different cameras and the use of interactive material.

## How much does a lesson cost?

That depends on the duration of the lesson. Feel free to send me an email for a detailed price list.
