

## ‘Practice with Me!’

Do you already take piano lessons but you *struggle with your practice*? Or you are not sure how to practice? Do you get lost in your homework and end up giving up after 10 minutes?

Come practice with me! In our practice sessions I will guide you through the whole process of practicing and make sure that every minute counts.

We will warm up, work on loosening the fingers, study the parts of the pieces that don't work, memorize the music and take breaks when needed. Oh, and do all the boring but necessary repetitions together until it works!

Last but not least, I will teach you HOW to practice. So that you can independently practice EFFECTIVELY.

### What is the difference between a practice session and a lesson?

During a lesson, teachers do thorough work on technique, analysis and interpretation. They also spend time on explaining theory and history of music.

During practice, you apply what you learn in the lessons. In ‘Practice with Me’ I will not interfere with the approach of your teacher but I will make sure that you reach your goals for your next lesson.

### How long is a practice session?

For young kids we can start with 20 minutes. For an average amateur I would recommend 30 minutes. For more advanced students we can go for 60 minutes.

### Where will the practice sessions take place?

Online via Zoom. You can use the following link to make reservations online:
